## AN INTRODUCTION

Little acorns grow to mighty oaks. Bharatiya Vidya Bhavan founded by Dr. K.M.Munshi on 7<sup>th</sup> November,1938 with the blessings of Mahatma Gandhi and other national leaders has grown from very small beginning to a world-wide intellectual, cultural and educational movement. It stands for preservation and propagation of Bharatiya Sanskriti (Indian culture) world-wide. Now it is having about 120 centers (Kendras) in India and overseas centers at New York, London, Sydney, Kuwait, Doha, Abu Dhabi etc. More details about Bhavan is available at, <http://www.bhavans.info>

The main purpose of the Bharatiya Vidya Bhavan is to provide a modern bridge to span the past, the present and the future, built on the strong foundation of the fundamental values of life. Its ideal is: *Vasudhaiva Kutumbakam*- the world is one family. Its motto is: *Aa no Bhadraah kratavo yanthu viswatah* - let noble thoughts come to us from every side.

The Bhavan is running various educational and cultural institutions including Schools, Colleges, Cultural centers etc. that are reputed for its excellence world over. In order to run these institutions in meritorious scale, Bhavan selects best talents who are having faith in values and in Bhavan's mission of propagation of Indian culture and deposes them as its employees.

The world is changing fast. Globalisation is opening up opportunities world-wide. English is the language of international communication. 'Survival of the fittest' has become a rule world over. Excellence only can be the foundation of success. Our students shall not fail in the world of competition lacking excellence. So we are committed for uncompromising excellence in all academic matters.

Teachers are having the pivotal role in achieving the excellence. So we give very much importance to our teachers. As *Swami Chidbhavananda* said, "...The worth and potentialities of a country get evaluated in and through the work of the teacher. A country is nothing more and nothing less than the teacher who is its builder. Indeed, the people of a land are the enlarged replica of their teacher. The progress, stagnation or deterioration in a society is directly or indirectly traceable to the mettle in the teacher. The teacher is the real nation builder. In direct proportion to the part he plays and the influence he exerts, people come up. The first charge on an enlightened society therefore is the selection of the right men for the teaching profession."

Bhavan's *Sikshan Bharati*, the body that supervises Bhavan's Schools spread all over India and abroad is conducting annual evaluation of all its Schools. Bhavan's School at Ramanattukara is the Second best and the School at Thirunavaya is the ninth. We have to maintain the standard without compromise.

Keeping in mind these high objectives, we are looking for *efficient and energetic Gurus, fluent in English, proud in Indian culture* and finding *pleasure in inspiring and moulding* tender hearts and *guiding* curious minds that are willing for dedicated, result-oriented service and having sufficient nectar of love to part with all our academic family. They will be the real *Shilpies* of our schools. This is an objective we cannot afford to compromise. **So, we insist that canvassing in any form will be counted as disqualification.**
